LIMITED LIFETIME WARRANTY

Carolina warrants products it manufactures against defects of material and workmanship under normal use and service for the life of the product to the original purchaser. This warranty shall not apply to any products which have been subjected to misuse, accidents, abuse, abnormal usage, negligence, improper maintenance, damaged in transportation or whose original construction has been altered by someone other than Carolina or its authorized agents. Normal aging and wear of fabrics, filling materials and finishes are exempted from this warranty. Carolina shall not be responsible for any expenses incurred by purchaser to repair or replace any product unless Carolina gave prior express written consent agreeing to reimburse purchaser.

As purchaser's sole and exclusive remedy under this warranty, Carolina, at its option, will repair or replace the damaged product or parts that meet the terms and conditions of this warranty at no charge to the original owner of record, and will pay the freight charges provided Carolina has previously authorized the replacement or return.

Except as stated above, Carolina makes no other expressed warranties and disclaims all implied warranties as to any product, including warranty of merchantability and fitness for any particular purpose. Carolina shall not be liable for any consequential or incidental damages. This warranty is applicable only to those parts actually manufactured by Carolina.

The Carolina line of furniture is among the most complete in the industry. However, should a particular need arise requiring size modification or customization, contact your Customer Service Representative for a price quotation. Because of the uniqueness of the product, special orders are not subject to cancellation.

CANCELLATION AND ORDER CHANGES

All orders accepted by Carolina are considered firm and binding and are not subject to cancellation.

WAREHOUSE STORAGE CHARGES

If a shipment is held beyond fourteen (14) calendar days after the order is ready for shipment at your request, a .067% per day (2% per month) storage charge will be assessed. The effective date will be fourteen (14) calendar days after the order is ready for shipment, as long as this date is after the acknowledged ship date. Further, the prices applied to the order will be those prices in effect at time of shipment.

EXTENDED PRODUCTION AND SHIP DATES

Orders placed with Carolina with extended lead times as requested by you will be subject to price in effect at time of shipment.

DAMAGED MERCHANDISE AND FREIGHT CLAIMS

1. Inspect all cartons for damage and carton quantity. All shipments are delivered to the transportation company in good condition; Carolina's liability ceases at this time. Do not refuse merchandise damaged in transit. Instead, enter a claim with the transportation company.
2. Record damages and/or shortages on the bill of lading and freight bill. Do not accept the shipment until all shortages are noted on both the bill of lading and the freight bill. Sign only for the items you receive. If you give the delivering carrier a clear receipt for a shipment, the carrier is relieved of further responsibility.

3. If concealed damage is found: Notify the delivering carrier at once and request an inspection. For shipments via Styline Logistics, notify your Carolina Customer Service Representative. This must be done within fifteen (15) calendar days of delivery. Without this inspection the transportation company will not entertain a claim for loss or damage. If the carrier will not perform the inspection, you should prepare an affidavit that you contacted the carrier, noting the time and date, and that the carrier failed to comply with your request. All shipping cartons and inner packing must be retained for carrier inspection. Do not move the damaged merchandise from the receiving location. It must also be retained for the inspection.

RETURN OF MERCHANDISE

Carolina will not accept returned merchandise without a signed Return Authorization (RA) issued by our Customer Service Department. All returned merchandise must be properly packaged and cartoned to prevent further damage. Carton must be clearly marked with identifying RA number so that proper credit can be issued. We will consider issuing RAs for the following reasons:

- Manufacturing defect (must be inspected by a Carolina Sales Representative)
- Carolina order processing error
- Shipping error
- Duplicate shipments
- Mismarked cartons

All merchandise must be returned within thirty (30) days of the date of the RA to receive credit. Freight damage, signs of usage, missing parts, etc. will be adjusted on the amount of credit to be issued.

REPAIR CHARGES

Reimbursement from Carolina for repairs must have prior approval.

BIFMA AND ANSI TESTING

Carolina is a member of the Business and Institutional Furniture Manufacturer's Association. Tests developed by BIFMA and approved by the American National Standards Institute (ANSI) determine the strength and durability of casegoods and seating in its everyday use. Although this testing does not serve as a warranty or guarantee, Carolina products within this price list generally meet or exceed applicable BIFMA and ANSI standards.

MODIFICATION PRICING

Modifications must be clearly designated on customer's purchase order by placing the letters MOD and modification # in front of the model number and noting the modification needed.

Example: MOD#3-1 - LG-W1721BC1-MNW-S5-N8-P2-QA-P8-NL-Q3 Add Grommet

FIRE RETARDANT PRODUCTS

California Technical Bulletin 117-2013: All Carolina upholstered seating products and the resilient filling materials used in the upholstered seating products meet or exceed the requirements of the State of California, Department of Consumer Affairs, Technical Bulletin 117-2013. Compliance with these requirements is indicated by the label attached to the seat bottom.

Flame Retardant Chemicals: All standard Carolina upholstered seating products are offered with components, as identified in TB117-2013, that are free of flame retardant chemicals. All Carolina upholstered seating products will indicate Flame Retardant chemical composition in accordance to the labeling requirements of California Senate Bill 1019.

California Technical Bulletin 133: Cal TB 133 is a flammability test for seating products used in public spaces. The testing procedure for Cal TB 133 requires the burning of an entire product since the test is a composite test and not a component test. Carolina has pretested and certified many different chair styles and upholsteries. If Cal TB 133 certification is required, a burn test may need to be completed with a specific model and upholstery combination. Contact Customer Service for Cal TB 133 approval, pricing and lead times.

Carolina can not be held liable if purchase order does not indicate a requirement for Cal TB 133 compliance.

Boston Fire Code: Please contact Carolina Customer Service if compliance is required.

FINISH

The patented Euroluxe™ finish is a chemically re-engineered Urethane clear coat that preserves the beautiful depth and clarity of OFS Brands' finishes, but allows for much greater performance with chemical and scratch resistance, as well as the complete elimination of dangerous formaldehyde emissions. The Euroluxe™ finish system achieves indoor air quality standards set by LEED and BIFMA furniture emission standards and allows all products to achieve SCS Global Services' Indoor Advantage Gold Certification.

HARDWOOD SPECIES

Carolina utilizes Maple or European Beech primarily to manufacture most solid hardwood chair frames and occasional tables. The wood species is noted with each model. Carolina reserves the right to change wood species for improved construction and method of manufacturing.

NOTE: Wood finish names on are a description of finish color ONLY and do not indicate the wood species of a chair frame or occasional table to which they will be applied.

CUSTOM FINISH COLOR

Custom finish matching is available for special requirements. OFS and Carolina must be provided with a suitable 8" x 10" or larger finish sample. However, custom finishes can be developed to meet specific needs. There will be a $300 net upcharge per order for new custom finishes (waived on projects of $100,000 list price or more). Custom finish upcharge for repeat or additional orders will be $150 per order, even when the upcharge was waived on the original project. Custom finish matches are valid for 12 months from sample date. After this time period, custom finishes must be rematched and reapproved for use.

FINISH DISCLAIMER

Some desktop accessories with plastic feet can penetrate or burn the finish. This is not a defect in the finish. Wood is a natural product and minor variations in wood color, grain and texture may be visible even though the pieces are finished at the same time. Also, light finishes when exposed to ultraviolet rays may darken and change color. These are not defects in finish, and merchandise cannot be replaced because of these natural variations.

HPL, TFL & 3DL

High Pressure Laminate (HPL)

HPL is produced by saturating multiple layers of kraft paper with phenolic resin. A layer of printed décor paper is placed on top of the kraft paper before pressing and is then fused together under heat and pressure. HPL is laminated to a panel and then attached to a substrate. Due to its durability, HPL is a common choice for horizontal surfaces. It also performs well in horizontal and vertical applications for high traffic settings such as office furniture, healthcare, casework, commercial, healthcare and educational facilities.

Thermally Fused Laminate (TFL)

TFL is made by fusing a resin-impregnated sheet of décor paper directly to a substrate, the resulting panel is ready for finishing. Heat and pressure activate the resin in the saturated TFL sheet creating a cross-linked bond with the substrate, which effectively seals it. Due to the performance, design flexibility and cost advantages, TFL offers an excellent option for designers and specifiers. TFL is a durable choice for office furniture, healthcare, casework, commercial, healthcare and educational facilities.

3D Laminate Thermally Fused Laminate to a Continuous Edge Profile (3DL)

Known as rigid thermoformable foil (RTF), three-dimensional laminate (3DL) is a thermoplastic film overlay. It provides end users the freedom to design components with contoured surface profiles and seamless edges without requiring edge treatments. 3DLs are primarily made of polyvinyl chloride (PVC) and polyester (PET) films. They can be seamlessly membrane pressed or vacuum formed around contoured components, including edges. 3D laminates are resistant to chipping, cracking or breaking. In addition, their application seals the core panel substrate from bacteria and moisture, which make them a popular choice in healthcare settings.

WOOD CARE

Careful craftsmanship combined with our Euroluxe finish makes your new Carolina wood furniture incredibly durable, and with proper care your furniture will provide beauty and convenience for years.

All Carolina products undergo rigid color-match procedures to ensure the best in color consistency.

- Dust frequently using a soft, damp, clean cloth, wiping with the grain.
- Remove liquid spills immediately, using a blotting rather than wiping motion.
- To clean, use a glass cleaner formulated with ammonia. Apply a small amount to a soft dry cloth and wipe in the direction of the grain. Dry with a soft cloth. Do not use furniture polish containing oil or silicone.
- Avoid prolonged exposure to direct sunlight, high humidity, extreme heat or cold and moisture.

LAMINATE CARE

- Avoid prolonged exposure to direct sunlight, high humidity, extreme heat or cold and moisture.
- Dust frequently with a soft, damp, clean cloth or mild detergent solution. Avoid using chemical or abrasive cleaning compounds.
- To avoid build up of cleaning agents, rinse the laminate surface with warm water and wipe with a clean damp cloth.

SEATING CARE

- Dust exposed wood parts frequently using a soft, damp, clean cloth, wiping with the grain.
- To clean wood, use a glass cleaner formulated with ammonia. Apply a small amount to a soft dry cloth and wipe in the direction of the grain. Dry with a soft cloth. Do not use furniture polish containing oil or silicone.
- To clean leather and vinyl upholstery, use a warm, damp cloth to restore a bright finish. For stubborn stains, use a moisturizing soap. Remove lather with a damp cloth, but do not rinse. Buff with a dry cloth.
- For fabric upholstery, use a damp cloth to wipe up spills. For tougher stains, contact your local OFS dealer for cleaning instructions.
- Avoid prolonged exposure to direct sunlight, high humidity, extreme heat or cold and moisture.
- The components of your Carolina chair, such as controls, casters and understructure, require “common sense” care and cleaning as necessary.
- Activate chair mechanisms periodically to ensure proper function of moving parts.

INDOOR ADVANTAGE GOLD FURNITURE

All OFS Brands products have achieved **SCS Indoor Advantage Gold Certification** from SCS Global Services. Indoor Advantage Gold certification is SCS Global Services' highest level of indoor air quality performance for furniture. The certification assures that furniture products support a healthy indoor environment by meeting strict chemical emission limits for volatile organic compounds (VOCs). To be certified, products must be tested by independent labs for compliance with the ANSI/BIFMA X7.1, and either ANSI/BIFMA e.3 or CDPH/EHLB Standard Method V1-1 for VOC emissions of concerns.

level® is the multi-attribute, sustainability standard and third-party certification program for the furniture industry. It has been created to deliver the most open and transparent means of evaluating and communicating the environmental and social impacts of furniture products in the built environment. Taking into account a company's social actions, energy usage, material selection and human and ecosystem health impacts, level addresses how a product is sustainable from multiple perspectives. With level, customers can make informed choices about commercial furniture that exceed single attribute ecocertifications. The level brand identifies that a product has been vetted by an independent third party certifier and its numeric marking 1, 2, or 3 indicates what threshold of certification it has achieved. Manufacturers—big and small—now have a methodology to present the environmental characteristics in a clear, easily understood manner with a vernacular that gives end users the ability to make an "apples to apples" comparison.

SCS Global Services **[SCS]** has been providing global leadership in third-party quality, environmental and sustainability verification, certification, auditing, testing, and standards development for three decades. Its programs span a cross-section of industries, recognizing achievements in green building, product manufacturing, food and agriculture, forestry, power generation retail, and more. SCS is accredited to provide services under a wide range of nationally and internationally recognized certification programs. Consistent with its mission, SCS is a chartered benefit corporation and Certified B Corp™, reflecting its commitment to socially and environmentally responsible business practices.

The mark of responsible forestry

The FSC® standards **[Forest Stewardship Council®]** represent the world's strongest system for guiding forest management toward sustainable outcomes. us.fsc.org FSC certified products are manufactured with material that comes from managed forests that are traceable from the time the logs are cut to the time the final project is installed and are recorded by way of a COC or chain of custody claim on all invoices. The demand for certified forest products has grown significantly in recent years. OFS Brands' goal to act as a responsible steward of the environment encouraged us to pursue our FSC Chain of Custody [COC] certification which would provide our customers (Dealer, A&D Community and End-users) the added reassurance they've done their part to be earth friendly in their product purchase and enable them to substantiate the LEED **[Leadership in Energy and Environmental Design]** Materials & Resources Credits for certified wood, in which the intent is to encourage environmentally responsible forest management. FSC certification is optional on many, but not all, OFS Brands' product lines. Please contact OFS Brands Customer Service for information in regards to which of our product lines are available as FSC certified, and what the necessary procedures are for ordering FSC certified products from OFS Brands.

OFS Brands' company-owned transportation company, Styline Logistics, is **SmartWay**-certified. SmartWay is one of U.S Environmental Protection Agency's **[EPA]** clean air programs that uses voluntary, rather than regulatory methods, to achieve air quality benefits. SmartWay's focus is in the transportation sector, and encompasses products and services associated with fuel-consuming engines.

The "**Premium Indiana Forest Products**" brand tells everyone that there is an abundant, sustainable supply of the finest Indiana hardwoods to meet consumer demand. It also tells them that Indiana's forests are well-managed, legally-harvested and environmentally responsible. The logo is reflective of the wood itself. Indiana hardwoods display a depth that defies imagination.
