# WARRANTY, TERMS & CONDITIONS | SHIPPING & ORDERING

## LIMITED LIFETIME WARRANTY

Carolina warrants products it manufactures against defects of material and workmanship under normal use and service for the life of the product to the original purchaser. This warranty shall not apply to any products which have been subjected to misuse, accidents, abuse, abnormal usage, negligence, improper maintenance, damaged in transportation or whose original construction has been altered by someone other than Carolina or its authorized agents. No unauthorized person, agent or dealer may give further warranties on behalf of Carolina.

(Please note: Because of natural variations on materials over which Carolina has no control, this warranty does not extend to color, grain or texture of wood, leather or upholstery cover.)

Normal aging and wear of fabrics, filling materials and finishes are exempted from this warranty. Carolina shall not be responsible for any expenses incurred by purchaser to repair or replace any product unless Carolina gave prior express written consent agreeing to reimburse purchaser.

In the event any product has to be returned to the factory for verification of a complaint, it must be pre-authorized by the factory and shipped prepaid along with written information containing the name of the original purchaser, original invoice number, and a copy of the original purchase order.

As purchaser's sole and exclusive remedy under this warranty, Carolina, at its option, will repair or replace the damaged product or parts that meet the terms and conditions of this warranty at no charge to the original owner of record, and will pay the freight charges provided Carolina has previously authorized the replacement or return.

Except as stated above, Carolina makes no other expressed warranties and disclaims all implied warranties as to any product, including warranty of merchantability and fitness for any particular purpose. Carolina shall not be liable for any consequential or incidental damages. This warranty is applicable only to those parts actually manufactured by Carolina.

---

### **EXTENDED PRODUCTION AND SHIP DATES**

Orders placed with Carolina with extended lead times as requested by you will be subject to price in effect at time of shipment.

### **DAMAGED MERCHANDISE AND FREIGHT CLAIMS**

1. Inspect all cartons for damage and carton quantity. All shipments are delivered to the transportation company in good condition; Carolina's liability ceases at this time. Do not refuse merchandise damaged in transit. Instead, enter a claim with the transportation company.
2. Record damages and/or shortages on the bill of lading and freight bill. Do not accept the shipment until all shortages are noted on both the bill of lading and the freight bill. Sign only for the items you receive. If you give the delivering carrier a clear receipt for a shipment, the carrier is relieved of further responsibility.
3. If concealed damage is found: Notify the delivering carrier at once and request an inspection. For shipments via Styline Logistics, notify your Carolina Customer Service Representative. This must be done within fifteen (15) calendar days of delivery. Without this inspection the transportation company will not entertain a claim for loss or damage. If the carrier will not perform the inspection, you should prepare an affidavit that you contacted the carrier, noting the time and date, and that the carrier failed to comply with your request. All shipping cartons and inner packing must be retained for carrier inspection. Do not move the damaged merchandise from the receiving location. It must also be retained for the inspection.

### **RETURN OF MERCHANDISE**

Carolina will not accept returned merchandise without a signed Return Authorization (RA) issued by our Customer Service Department. All returned merchandise must be properly packaged and cartoned to prevent further damage. Carton must be clearly marked with identifying RA number so that proper credit can be issued. We will consider issuing RAs for the following reasons:

- Manufacturing defect (must be inspected by a Carolina Sales Representative)
- Carolina order processing error
- Shipping error
- Duplicate shipments
- Mismatched cartons

All merchandise must be returned within thirty (30) days of the date of the RA to receive credit. Freight damage, signs of usage, missing parts, etc. will be adjusted on the amount of credit to be issued.

### **INSTALLATION**

Mile Marker products must be installed by a qualified installer. Installers are responsible for selecting and supplying appropriate fasteners and must verify the adequacy of the mounting hardware. Improper installation may cause damage or serious injury. Carolina cannot be held liable for damage or injury caused by incorrect mounting, assembly or use. The instructions are only a suggested installation method and installers are responsible for following all local codes and regulations. Complete installation guides are available through Carolina Customer Service or the Carolina website - [www.carolinabusinessfurniture.com](http://www.carolinabusinessfurniture.com)

**\*To complete installation, base cove molding needs to be installed.**

### **REPAIR CHARGES**

Reimbursement from Carolina for repairs must have prior approval.

### **BIFMA AND ANSI TESTING**

Carolina is a member of the Business and Institutional Furniture Manufacturer's Association. Tests developed by BIFMA and approved by the American National Standards Institute (ANSI) determine the strength and durability of casegoods and seating in its everyday use. Although this testing does not serve as a warranty or guarantee, Carolina products within this price list generally meet or exceed applicable BIFMA and ANSI standards.

### **MODIFICATION PRICING**

Modifications must be clearly designated on customer's purchase order by placing the letters MOD and modification # in front of the model number and noting the modification needed.

**Example: MOD#3-4-310-22RD-A8S-MNW-BSW Add Grommet**

# FIRE RETARDANT PRODUCTS

---

## **FIRE RETARDANT PRODUCTS**

California Technical Bulletin 117-2013: All Carolina upholstered seating products and the resilient filling materials used in the upholstered seating products meet or exceed the requirements of the State of California, Department of Consumer Affairs, Technical Bulletin 117-2013. Compliance with these requirements is indicated by the label attached to the seat bottom.

Flame Retardant Chemicals: All standard Carolina upholstered seating products are offered with components, as identified in TB117-2013, that are free of flame retardant chemicals. All Carolina upholstered seating products will indicate Flame Retardant chemical composition in accordance to the labeling requirements of California Senate Bill 1019.

California Technical Bulletin 133: Cal TB 133 is a flammability test for seating products used in public spaces. The testing procedure for Cal TB 133 requires the burning of an entire product since the test is a composite test and not a component test. Carolina has pretested and certified many different chair styles and upholsteries. If Cal TB 133 certification is required, a burn test may need to be completed with a specific model and upholstery combination. Contact Customer Service for Cal TB 133 approval, pricing and lead times.

Carolina can not be held liable if purchase order does not indicate a requirement for Cal TB 133 compliance.

Boston Fire Code: Please contact Carolina Customer Service if compliance is required.

### **FABRIC PUDDLING**

The content of certain fabrics makes these fabrics susceptible to puddling and wrinkling over which Carolina has no control. Slight changes in weather and humidity can affect these fabrics. Carolina will not assume responsibility when this happens.

### **FABRIC COLOR MATCHING**

Carolina does not guarantee and will not assume responsibility for the fastness of colors or wearing qualities of any material. Because of industry dye lot variations, colors may not match exactly. Any adjustments made will depend upon the fabric manufacturers willingness to stand behind their product.

### **CUT YARDAGE FABRICS**

Cut yardage from any Carolina Textile partner may be purchased through Carolina. Contact Customer Service for cut yardage pricing.

### **DIRECTIONAL FABRICS**

Directional fabrics such as plaids, stripes and certain patterns may not meet your expectations due to certain sewing patterns, tufting and contoured shapes of certain styles and models. When required we will upholster to customer specifications but such orders are not subject to return. If you have a question or concern about one of these fabrics, please contact your Carolina Customer Service Representative and submit a fabric sample for approval prior to placing an order.

### **FABRIC APPLICATION**

Carolina will match all fabrics that require matching such as plaids, stripes, or prints. Unless otherwise noted on the customer's purchase order, Carolina will apply textiles to upholstered items in the manner which we deem to be most appealing. Carolina takes no responsibility for the direction in which textiles are applied unless the desired direction is notes on the customer purchase order. Carolina reserves the right to reject textiles we deem unsuitable for application on our products.

### **GUARANTEE**

Although every effort is made to select covering materials for wearability as well as appeal, we CANNOT guarantee covers for wearability or colorfastness. We can extend only that guarantee which the supplier extends to us.

**COM (CUSTOMER'S OWN MATERIAL) & GRADED-IN TEXTILE POLICY**

Carolina will evaluate the fabric to determine if it is possible to use this type of fabric on our furniture, but this does not warrant or determine the performance of the fabric. Any warranty claims for these upholstery materials will fall to the original vendor of the fabric, not Carolina. With a broad spectrum of harsh cleaning agents used by facilities, Carolina recommends that the owner test each fabric selection with their specific cleaning methods before ordering.

**COM/COL ORDERING INSTRUCTIONS**

1. Send 4" x 4" swatch for approval to: Carolina, Attn: Customer Service, 1264 Jackson Lake Rd, High Point, NC 27263.
2. Send a swatch along with the order to: Carolina, Attn: Customer Service, 1264 Jackson Lake Rd, High Point, NC 27263.

6. Ship COM or COL material prepaid to: Carolina, 533 Archdale Blvd, Archdale, NC 27263.

COM and COL orders will be scheduled for production only upon receipt of production yardage. In the absence of a representative sample sent with the purchase order or application instructions, Carolina will apply the fabric in what it determines to be the best manner and cannot be held responsible after upholstering. **Excess COM/COL materials will be discarded at the discretion of Carolina unless otherwise instructed by the customer at the time the order is placed.**

**COM YARDAGE REQUIREMENTS (RAILROADED FABRICS)**

All items are available with material furnished by the customer. Yardage requirements listed in our price list are based on 54" wide. Please contact Customer Service if goods are less than 54" wide. # TFL, HPL AND 3DL

---

## **HPL, TFL & 3DL**

### **High Pressure Laminate (HPL)**

HPL is produced by saturating multiple layers of kraft paper with phenolic resin. A layer of printed décor paper is placed on top of the kraft paper before pressing and is then fused together under heat and pressure. HPL is laminated to a panel and then attached to a substrate. Due to its durability, HPL is a common choice for horizontal surfaces. It also performs well in horizontal and vertical applications for high traffic settings such as office furniture, healthcare, casework, commercial, healthcare and educational facilities.

### **Thermally Fused Laminate (TFL)**

TFL is made by fusing a resin-impregnated sheet of décor paper directly to a substrate, the resulting panel is ready for finishing. Heat and pressure activate the resin in the saturated TFL sheet creating a cross-linked bond with the substrate, which effectively seals it. Due to the performance, design flexibility and cost advantages, TFL offers an excellent option for designers and specifiers. TFL is a durable choice for office furniture, healthcare, casework, commercial, healthcare and educational facilities.

### **3D Laminate Thermally Fused Laminate to a Continuous Edge Profile (3DL)**

Known as rigid thermoformable foil (RTF), three-dimensional laminate (3DL) is a thermoplastic film overlay. It provides end users the freedom to design components with contoured surface profiles and seamless edges without requiring edge treatments. 3DLs are primarily made of polyvinyl chloride (PVC) and polyester (PET) films. They can be seamlessly membrane pressed or vacuum formed around contoured components, including edges. 3D laminates are resistant to chipping, cracking or breaking. In addition, their application seals the core panel substrate from bacteria and moisture, which make them a popular choice in healthcare settings.

# PRODUCT CARE GUIDE

## WOOD CARE

Careful craftsmanship combined with our Euroluxe finish makes your new OFS wood furniture incredibly durable, and with proper care your furniture will provide beauty and convenience for years.

All OFS products undergo rigid color-match procedures to ensure the best in color consistency.

- Dust frequently using a soft, damp, clean cloth, wiping with the grain.
- Remove liquid spills immediately, using a blotting rather than wiping motion.
- To clean, use a glass cleaner formulated with ammonia. Apply a small amount to a soft dry cloth and wipe in the direction of the grain. Dry with a soft cloth. Do not use furniture polish containing oil or silicone.
- Avoid prolonged exposure to direct sunlight, high humidity, extreme heat or cold and moisture.

## LAMINATE CARE

- Avoid prolonged exposure to direct sunlight, high humidity, extreme heat or cold and moisture.
- Dust frequently with a soft, damp, clean cloth or mild detergent solution. Avoid using chemical or abrasive cleaning compounds.
- To avoid build up of cleaning agents, rinse the laminate surface with warm water and wipe with a clean damp cloth.

## SEATING CARE

- Dust exposed wood parts frequently using a soft, damp, clean cloth, wiping with the grain.
- To clean wood, use a glass cleaner formulated with ammonia. Apply a small amount to a soft dry cloth and wipe in the direction of the grain. Dry with a soft cloth. Do not use furniture polish containing oil or silicone.
- To clean leather and vinyl upholstery, use a warm, damp cloth to restore a bright finish. For stubborn stains, use a moisturizing soap. Remove lather with a damp cloth, but do not rinse. Buff with a dry cloth.
- For fabric upholstery, use a damp cloth to wipe up spills. For tougher stains, contact your local OFS dealer for cleaning instructions.
- Avoid prolonged exposure to direct sunlight, high humidity, extreme heat or cold and moisture.
- The components of your OFS chair, such as controls, casters and understructure, require “common sense” care and cleaning as necessary.
- Activate chair mechanisms periodically to ensure proper function of moving parts.

# ENVIRONMENTAL ATTRIBUTES

The patented **Euroluxe® finish** is a chemically re-engineered Urethane clear coat that preserves the depth and clarity of OFS Brands finishes and achieves SCS Global Services' Indoor Advantage Gold Certification.

All OFS Brands products have achieved **SCS Indoor Advantage Gold Certification** from SCS Global Services. Indoor Advantage Gold certification is SCS Global Services' highest level of indoor air quality performance for furniture. The certification assures that furniture products support a healthy indoor environment by meeting strict chemical emission limits for volatile organic compounds (VOCs). To be certified, products must be tested by independent labs for compliance with the ANSI/BIFMA X7.1, and either ANSI/BIFMA e.3 or CDPH/EHLB Standard Method V1-1 for VOC emissions of concerns.

**level®** is the multi-attribute, sustainability standard and third-party certification program for the furniture industry. It has been created to deliver the most open and transparent means of evaluating and communicating the environmental and social impacts of furniture products in the built environment. Taking into account a company's social actions, energy usage, material selection and human and ecosystem health impacts, level addresses how a product is sustainable from multiple perspectives. With level, customers can make informed choices about commercial furniture that exceed single attribute ecocertifications. The level brand identifies that a product has been vetted by an independent third party certifier and its numeric marking 1, 2, or 3 indicates what threshold of certification it has achieved. Manufacturers—big and small—now have a methodology to present the environmental characteristics in a clear, easily understood manner with a vernacular that gives end users the ability to make an “apples to apples” comparison.

SCS Global Services [**SCS**] has been providing global leadership in third-party quality, environmental and sustainability verification, certification, auditing, testing, and standards development for three decades. Its programs span a cross-section of industries, recognizing achievements in green building, product manufacturing, food and agriculture, forestry, power generation retail, and more. SCS is accredited to provide services under a wide range of nationally and internationally recognized certification programs. Consistent with its mission, SCS is a chartered benefit corporation and Certified B Corp™, reflecting its commitment to socially and environmentally responsible business practices.

The FSC® standards [**Forest Stewardship Council®**] represent the world's strongest system for guiding forest management toward sustainable outcomes. [us.fsc.org](http://us.fsc.org) FSC certified products are manufactured with material that comes from managed forests that are traceable from the time the logs are cut to the time the final project is installed and are recorded by way of a COC or chain of custody claim on all invoices. The demand for certified forest products has grown significantly in recent years. OFS Brands' goal to act as a responsible steward of the environment encouraged us to pursue our FSC Chain of Custody [COC] certification which would provide our customers (Dealer, A&D Community and End-users) the added reassurance they've done their part to be earth friendly in their product purchase and enable them to substantiate the LEED [**Leadership in Energy and Environmental Design**] Materials & Resources Credits for certified wood, in which the intent is to encourage environmentally responsible forest management. FSC certification is optional on many, but not all, OFS Brands' product lines. Please contact OFS Brands Customer Service for information in regards to which of our product lines are available as FSC certified, and what the necessary procedures are for ordering FSC certified products from OFS Brands.

OFS Brands' company-owned transportation company, Styline Logistics, is **SmartWay**-certified. SmartWay is one of U.S Environmental Protection Agency's [**EPA**] clean air programs that uses voluntary, rather than regulatory methods, to achieve air quality benefits. SmartWay's focus is in the transportation sector, and encompasses products and services associated with fuel-consuming engines.

The “**Premium Indiana Forest Products**” brand tells everyone that there is an abundant, sustainable supply of the finest Indiana hardwoods to meet consumer demand. It also tells them that Indiana's forests are well-managed, legally-harvested and environmentally responsible. The logo is reflective of the wood itself. Indiana hardwoods display a depth that defies imagination.
