

OFS is proud to have been awarded a coveted contract with Premier

Cultivating spaces for care begins with creating a feeling of comfort, security, and confidence. To do this, we must support caregivers, patients, senior residents, and guests alike. For caregivers, we can foster environments of efficiency, minimize risks, and create spaces for restoration throughout the day. For others, we can foster confidence, peace, and inspiration that spur patients, residents, and guests forward.

Carolina, along with OFS' portfolio of products help create spaces for healing, for each person in the continuum of care.

Carolina provides members with a range of solutions including casegoods, seating, tables and accessories in cleanable environmentally conscious materials.

OFS provides significant value to Premier members by:

- Offering significant savings based on Premier members' collective purchasing power
- Allowing members to customize a contract solution that achieves their purchasing goals
- Providing access to a brand renowned for excellence
- Modular casework to achieve a custom solution
- Offering a unique distribution model that fits your service needs
