### **OFS Level Grouping Methodology**

For LEVEL® certification, OFS uses the product grouping methodology defined in the preamble of Section 6 of the ANSI/BIFMA e3-2019 Furniture Sustainability Standard:

*The combination of base product and options with the highest volume of sales or anticipated highest volume for a new product within the product category / subcategories as defined in Annex A. It is not necessary to consider the full range of options available on the representative sample for purposes of the evaluation. Notwithstanding, all products of a family group are expected to meet the intent of the credits.*
