

A healthcare professional, likely a nurse or doctor, stands in a modern clinical setting. She is wearing blue scrubs and has a stethoscope around her neck. She is holding a tablet computer and looking at it with a smile. The room features light-colored wood-grain modular cabinetry with white handles. On the counter, there are three glass jars containing cotton swabs, gauze, and gloves. A white ergonomic stool is in the foreground. The background wall is a light blue color. The overall atmosphere is clean, professional, and modern.

MODULAR CABINETRY

# Elevating healthcare environments

Mile Marker.G2 is designed to  
balance aesthetics, functionality,  
adaptability, and cost-effectiveness.

It promotes healing and efficiency  
within public, patient, and caregiver  
spaces through proven durability and  
customizable features.

## FEATURES & BENEFITS

---

- 1. Soffit filler panels** create a cohesive aesthetic by completing the gaps between the cabinets and ceiling.
- 2. Storage cabinets** optimize access to medical supplies and equipment while enhancing caregiver workflow.
- 3. Soft-close doors and drawers** eliminate noise and keep drawer contents in place.
- 4. Integrated sink and backsplash** promote infection control by reducing seams and simplifying cleaning.
- 5. Glove box openings** organize and provide easy access to gloves.
- 6. Toe kicks (4" and 6"h)** accept laminate toe kick rail or vinyl cove molding and help prevent damage to cabinets.

## ADDITIONAL OPTIONS

---

**Sloped top panels** help prevent build-up of debris and create unique elevation details.

**Access back panels** allow for convenient reach to electrical and data connections.

**Pull out trash cabinets** conceal bins while maximizing floor space.

**Notched shelves** provide clean, finished access for task light cords.
