

Tools Required:  
Impact Screwdriver  
#3 Phillips Screwdriver Bit  
Ruler or Straight Edge  
Marker  
Scissors or Utility Knife  
Hole Pattern Template (cut from side of shipping carton)

Notes:

1. Hole pattern template is located on shipping carton.
2. Use a straight edge to align hole pattern template to top and front of seat.
3. Mark ARM holes with a marker.
4. Use ice pick to locate holes behind fabric. Cut a small X over each hole.
5. Attach bracket with provided screws.

Locate template flush with top and front of the seat using a ruler or similar straight edge.

Bracket orientation determines a left or right arm.
