

Restoring focus

With the rapid pace of change in today's healthcare environments, smart and efficient workspaces are essential to the healing process. Spaces that allow caregivers the chance to focus and recharge are important to the overall success of healthcare facilities. Mile Marker's clean, simple design is the only product that supports the demands of today's hardworking modern caregiver.

Human-centered solutions

Today's commercial spaces require stylish, comfortable settings that support users while connecting them to the environments around them.

Accessible patient support

In modern healthcare environments, an efficient and comfortable space that supports the healing process is essential. Mile Marker's clean, simple design is the only product that allows today's healthcare facilities to create supportive, multi-functional, hardworking patient spaces.

A broad family of solutions

Thought starters

Our experienced healthcare team at Carolina works closely along side The OFS Design Studio. This collaboration of dynamic backgrounds and geographic origins among industrial design and engineering teammates brings to life the most patient-centered product solutions the healthcare industry has to offer. Pencil sketches, 3D printed

parts and rough prototypes serve as the journey to fine tune the last 10% so that patients, and the people caring for them can experience the difference between good design and great design. Our goal is to deliver design value in a very intentional way where healthcare products are simple, personal and purposeful.
