

Whisper

Patient spaces

Designed for smaller patient rooms, the Whisper Sleepover Bench offers generous comfort and functionality in a clean, compact design. Many options including upholstery, 3D laminates, solid surface and storage solutions allow facilities to personalize for their specific needs.

Two standard lengths are available, both with memory foam sleep cushions covered in antimicrobial moisture barrier Sure-Chek®. Whisper's intuitive operation makes it the best choice for facilities to support overnight guests.

Whisper 68" sleepover bench with upholstered seat and 3DL trundle front

Our experienced healthcare team at Carolina works closely along side The OFS Design Studio. This collaboration of dynamic backgrounds and geographic origins among industrial design and engineering teammates brings to life the most patient-centered product solutions the healthcare industry has to offer. Pencil sketches, 3D printed

parts and rough prototypes serve as the journey to fine tune the last 10% so that patients, and the people caring for them can experience the difference between good design and great design. Our goal is to deliver design value in a very intentional way where healthcare products are simple, personal and purposeful.
