

Evergreen

Public spaces

Public spaces in today's facilities are often times the most hard working and heavily used environments. The Evergreen collection's stylish design can enhance these spaces

with fresh appeal. Warm ash wood legs, optional metal leg ferrules and various arm cap choices give specifiers the ability to virtually customize Evergreen for their specific needs.

Wall-saver design

Wood, resin or solid surface arm caps available; modern white solid surface shown

Comfortable sit designed with ingress and egress in mind

Our experienced healthcare team at Carolina works closely along side The OFS Design Studio. This collaboration of dynamic backgrounds and geographic origins among industrial design and engineering teammates brings to life the most patient-centered product solutions the healthcare industry has to offer. Pencil sketches, 3D printed

parts and rough prototypes serve as the journey to fine tune the last 10% so that patients, and the people caring for them can experience the difference between good design and great design. Our goal is to deliver design value in a very intentional way where healthcare products are simple, personal and purposeful.
