

Retrospect side sleeper

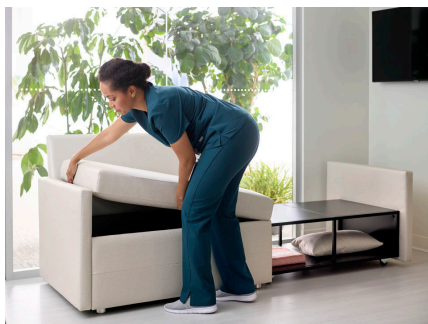

Operating instructions

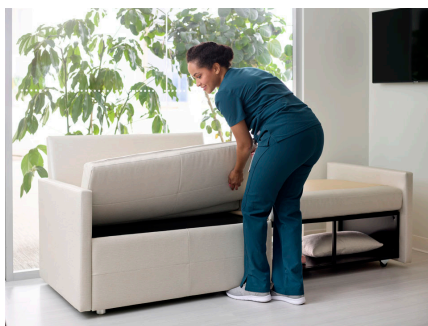

1. Locate the black lever on the side of the side sleeper.

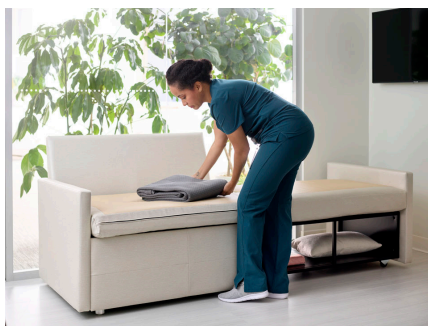

2. Grasp the black lever and pull it outward firmly to initiate the extension process. As you pull the lever, the arm of the chair will slide out to the side.

3. Flip the seat cushion over to the side/arm that has just been extended.

4. Locate the back cushion of the chair. Place the back cushion onto the area that was previously the seat.

5. Rest well! The area beneath the extended portion can be used as storage for any personal items.
