

Converting sofa to sleepover

1. From the top of the back cushion, pull the back cushion down towards the seat.
2. With the back cushion resting on the seat cushion, apply slight downward pressure on the back cushion until you hear a “click” as the lock latch engages. This “click” signifies that the back cushion is securely locked in the sleep position.

Converting sleepover to sofa

1. While applying slight downward pressure on the sleep surface cushion, push the lock latch lever located on the inside back of the sofa to the right. This action will release the back cushion from the locked position.
2. Once the back cushion is unlocked, lift the back cushion upward into the sofa position.
