Sorta

# Sorta

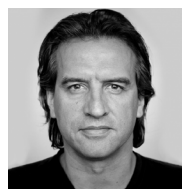

Sorta was imagined for flexibility, blurring the lines between healthcare, workplace, and education to create a true solution that can adapt to a user's needs. This playful seating design showcases a wide variety of color options, usage options, and innovation. Caregivers can lean back, settling into a time of connection with a patient or coworker. Patients and caregivers can use the back as an armrest for blood-draw, or a convenient desk for paperwork. Students can use the arm as a work surface to accomplish tasks. However you work, Sorta works with you.

Gecco Vision - Henner Jahns

Gecco Vision was founded in 1997 by Henner Jahns. The company has performed award-winning work for numerous clients in Europe and the United States. Realizing your brand in a compelling and innovative way is our goal. Our passion for design takes people where they want to go, towards an idea, to an

experience. Our expertise includes all levels of the design process: research, product development, invention, engineering, and manufacturing. We believe in a hands-on approach and the efficient utilization of tools according to the project's needs.
