Genus enriches evolving spaces with a range of seating choices for all work modes in both focused and open spaces. The elastomer back flexes to meet the user, providing ergonomic support for conferences, guest, stool, and flexible task seating. This is seating made simple.
Genus is designed to adapt to the evolving spaces that support people and their activities. Genus responds to the human form with innovative materials such as the elastomer back that contours to natural curves in our bodies. A family of seating, including guest, stacker, conference and multi-use choices, Genus accommodates the variety of interactions as people move, work, learn and socialize. A good chair with a really good sit will make a difference in your day.
A broad family of solutions

In 1989, after decades working in furniture design, Roger Webb founded Webb Associates a design consultancy based in London. Today, Roger still leads the firm, but now is joined by fellow designers David Lancaster and Luke Smoothy. Webb Associates are known for their ergonomic expertise and carefully tailored design solutions. Our partnership with Roger and his team has produced some of our favorite product lines, such as Heya by OFS and Hug by Carolina.
