OPERATING INSTRUCTIONS FOR R3 CONTROL

R3 Control
Right Side

Left Side

Paddle (1):
Seat Height Adjustment
To raise the seat height: Stand up (or raise your body; so there's no pressure on the seat), lift the paddle to raise the seat height.
To lower the seat height: Sit in the chair and lift the paddle to lower the seat height.

Right Side

Left Side

Paddle (2):
Back Angle Adjustment
To adjust: When seated, push the paddle down (counterclockwise) until the paddle is in the first position. Now you can lean back to check the back angle. Push the paddle to the second position for the maximum back angle. Pull the paddle up (clockwise) until the paddle stops to lock the back into the upright position.

Right Side

Left Side

Knob (3):
Tension Control
To tighten the tension: When seated, turn the knob towards the back of the seat (clockwise).
To loosen the tension: When seated, turn the knob towards the front of the seat (counterclockwise).

R3 Control
Right Side

Back Rest (4):
Back Height Adjustment
To raise the back height: place your hands on the bottom of the back rest and gently push upward. To lower the back height: Gently push the back rest upward until it reaches its max. The back rest will then fall to the lowest height level.

Note:
Back height adjustment not available on Revel Executive Back (3515) chairs.

Left Side

R3-SS6 Control Only
