LeanTo

Every building has those spaces that people are drawn to for escape. Some are intentional through architecture, while others are more natural based on flow and activity or the lack of it. Nooks, alcoves, corridors, and stairs often present an escape and that's exactly what LeanTo is designed to achieve. Outfitted to feel like it was built into your space, LeanTo solves the need to take back our own attention or give full attention to others. Similar to individuals, small groups need to escape as well as align and set pace.
