Series overview

General notes

- See Adler planning guide for information on how to build up desks, bridges, returns, and credenzas
- Planning guide also includes information on support components

Pedestal/door glides and hinges

- Drawers feature soft close glides. **Note**: Not available on lateral files
- All hinged doors feature soft close hinges

Locking

- Non locking is standard. Optional locking is available for the following items, unless noted otherwise:
  - Pedestal drawers and doors
  - Highback and wallmount hinged doors

Metal rail detail

- Adler pedestals feature a horizontal metal accent rail above doors and drawers
- **Note**: When a contrasting finish is not desired, we recommend using the following laminate and powder coat combinations:
  - Solid laminate:
    - Black: onyx powder coat
    - Frosty white: bone powder coat
    - Grey: luster grey powder coat
    - Pure White: polar powder coat
    - Slate Grey: oiled bronze powder coat
  - Woodgrain laminate:
    - Blonde: gold powder coat
    - Burnished: oiled bronze powder coat
    - Char: onyx powder coat
    - Chestnut: latte powder coat
    - Desert: latte powder coat
    - Drift: warm grey powder coat
    - Finn: stone powder coat
    - Kodiak: latte powder coat
    - Linen: latte, stone powder coat
    - Loft: warm grey powder coat
    - Ochre: stone powder coat
    - Peak: stone powder coat
    - Pecan: oiled bronze powder coat
    - Root: oiled bronze, rust powder coat
    - Saddle: oiled bronze powder coat
    - Sienna: rust powder coat
    - Steel: oiled bronze powder coat
    - Timber: latte powder coat
    - Twig: latte powder coat

Metal rail detail

Height adjustable Overview

General notes

- Height range:
  - Cantilever desk: 29.5″-45.5″h
  - All other desks: 29.5625″-45.5625″
- Worksurfaces available as TFL or HPL
- 75 lb. max rating per height adjustable worksurface
- Paddle switch height adjustable controller
- Cantilever and runoff height adjustable desks coordinate with low height storage
- Height adjustable bridges and returns can be ganged to shell and single pedestal desks to create joined L desks, where both worksurfaces raise together
- To maintain spacing with media panels and wall storage, specify fixed bridges and returns with height adjustable desks
- Refer to Adler planning guide for information on height adjustable and fixed applications, and wire management

Power

- All height adjustable desks are standard with an PS-77 undersurface power supply
- Optional PS-77 on height adjustable bridges and returns
- PS-77 features six outlets and a 10′ power cord
- Optional charging drawer on models with box/box/file pedestals. **Note**: Located in top drawer only

Wire management

- All height adjustable desks, returns, and bridges standard with metal trough wire manager
- For cantilever and runoff desks, wire manager powder coat will match shroud selection
- For all other height adjustable models wire manager will default to mechanism finish. Black or silver only
- Optional grommets for all surfaces, locations vary by model. Available as black or silver

Media panel use

- Cantilever and runoff desks to be used with standard media panels for low height worksurfaces
- For remaining height adjustable desks, returns, and bridges, specify media panel offset and use extended media panels
- Fixed height bridges and returns to be used with standard desk height media panels

Power

Worksurface power supply
PS-77

Shown on desk and return

Height adjustable Cantilever desk

General notes

- Widths: 60″w, 66″w, 72″w
- Depths: 30″d, 36″d
- **Note**: Actual surface dimension is 2″ less than overall width
- Base cabinet depth: 24″d
- Base cabinet features open interior and back for wall access. Includes three outlet power supply
- Refer to height adjustable overview page and planning guide for additional information

Options

- Worksurface shapes: Four rounded corners (RD4C) or two rounded outside corners (RD2C)
- **Note**: For RD2C option, corners along wall will be squared
- Surface available as TFL, HPL, or solid surface
- Optional grommets in any combination of left, center, and right
- Specify partial height modesty panel separately
- Optional locking on cabinet doors

AL-T30HACDL shown

Worksurface shapes

Four rounded corners (RD4C)

Two rounded corners (RD2C)

Grommets

Cantilever desk plan view
optional left, center, and right grommets shown (G8)

Height adjustable Runoff desk

General notes

- Overall widths: 60″w, 66″w, 72″w
- Overall depths: 30″d, 36″d
- **Note**: Actual surface dimension is 2″ less than overall width
- Open base cabinet depth: 24″d
- Base cabinet features a removable adjustable shelf and hinged cabinet back for wall access. Includes three outlet power supply
- Refer to height adjustable overview page and planning guide for additional information

Options

- Optional grommets in any combination of left, center, and right
- Optional partial height modesty specified within the runoff desk model. Features rounded corners at the bottom. Spans the entire opening between the cabinet and panel base, regardless of desk width

from user side

Grommets

Runoff desk plan view
optional left, center, and right grommets shown (G8)

Partial modesty

Height adjustable Pedestal | shell desks

General notes

- Widths: 60″w, 66″w, 72″w
- Depths: 30″d, 36″d
- Single and double pedestal desks available with 12″w or 18″w pedestals
- **Note**: 18″w pedestals not available for 60″w single or double pedestal desks
- Single pedestal desks are handed left or right
- Refer to height adjustable overview page and planning guide for additional information
- For media panel use, specify left (C6D) or right (C6E) offset. **Note**: Offset not available on double pedestal desks
- **Note**: Media panel recesses behind worksurface, must be used with extended height media panels

Options

- Full or half height static modesty panels
- Optional partial height modesty specified within the desk model. Attaches to underside of the worksurface
- Optional worksurface grommet in any combination of left, center, and right. **Note**: Grommet spacing varies by desk type
- Optional end panel grommet on left (GRLE) or right (GRRE) end. **Note**: Location varies by desk type. Refer to planning guide for locations
- Optional felt liner in box drawers for single and double pedestal desks
- Optional locking on drawer pedestals

Height adjustable Bridge

General

- Widths: 42″w, 48″w, 54″w, 60″w, 66″w, 72″w
- Depth: 24″d
- Short grain worksurface on 42″w-60″w models
- Long grain worksurface on 66″w-72″w models
- Hinged fold down panel on user side for wall access
- Refer to height adjustable overview page and planning guide for additional information
- **Note**: Media panel recesses behind worksurface, must be used with extended height media panels
- Unfinished back standard. Optional finished back, or finished back with grommet
- Support end panels can be added on left, right, or both ends. **Note**: Bridge must be supported at each end with storage or end panels

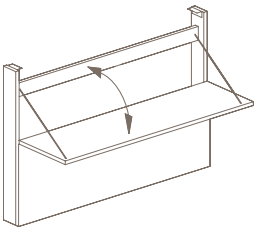

Options

- Optional center grommet
- For media panel use specify FFST offset

Height adjustable Fixed bridge

General

- **Note**: Used with height adjustable shell and single pedestal desks only
- Overall widths: 42″w, 48″w, 54″w, 60″w
- **Note:** Worksurface 2″ less than overall width
- Depth: 24″d
- Overall height: 29.8125″h
- Short grain worksurface
- Cantilever support bracket included on 54″w and 60″w models
- Refer to height adjustable overview page and planning guide for additional information

Options

- Full or half height modesty
- Optional wire access slot for full height modesty
- Optional grommets in any combination of left, center, and right

Bridge

optional left, center, and right
grommets shown (G8)

Height adjustable Return

General

- Widths: 42″w, 48″w, 54″w, 60″w
- Depth: 24″d
- Short grain worksurface
- Models available as box/box/file or file/file pedestal, handed left or right
- 12″w or 18″w pedestal models
- **Note**: 18″w pedestal not available on 42″w return
- Hinged fold down panel on user side for wall access
- Refer to height adjustable overview page and planning guide for additional information

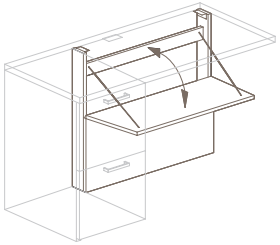

Options

- For media panel use specify FFST offset
- **Note**: Media panel recesses behind worksurface, must be used with extended height media panels
- Unfinished back standard. Optional finished back, or finished back with grommet
- Optional center grommet
- Optional locking on pedestals
- Optional felt liner in box drawers

Return

Height adjustable Fixed return

General

- **Note**: Used with height adjustable shell and single pedestal desks only
- Overall widths: 42″w, 48″w, 54″w, 60″w
- **Note:** Worksurface 2″ less than overall width
- Depth: 24″d
- Overall height: 29.8125″h
- Models available as box/box/file or file/file pedestal, handed left or right
- 12″w or 18″w pedestal models
- **Note**: 18″w pedestal not available on 42″w return
- Short grain worksurface
- Refer to height adjustable overview page and planning guide for additional information

Options

- Full or half height modesty
- Optional wire access slot for full height modesty
- Optional grommets in any combination of left, center, and right
- Optional locking on pedestals
- Optional felt liner in box drawers

Return

optional left, center, and right grommets shown (G8)

Felt liner

Box drawers only

Height adjustable Extended height media panels

General notes

- For use with height adjustable desks, bridges, and returns. **Note**: Not for with cantilever or runoff desks
- Widths: 24″w-60″w, in 6″ increments
- Height: 25.25″h
- Mounts directly to the wall, mounting hardware included

Full height

- Specify full height when no wallmounted storage is specified
- TFL and upholstered panels have optional shelf. See full height shelf section

Partial height

- Specify partial height when wallmounted storage is specified

Materials

- TFL (vertical grain)
- Markerboard (HPL laminate)
- Upholstered (tackable). **Note**: Upholstered wall panel with shelf option is not tackable
- **Note**: Upholstered panels wider than 42″w will be two pieces

Modular components Worksurfaces | Rectangle

General

- Height: 1″h

Long grain worksurfaces

- 23″d/24″d worksurface widths: 18″w-96″w, in 6″ increments
- 30″d/36″d worksurface widths: 60″w-84″w, in 6″ increments

Short grain worksurfaces

- Widths: 18″w-54″w, in 6″ increments
- Depths: 23″d, 24″d

Options

- Grommets available in any combination of left, center, and right for all worksurface shapes

Long grain

AL-T24LRWS shown

Short grain

AL-T24SRWS shown

Worksurfaces Soft rectangle

General

- Height: 1″h
- 24″d worksurface widths: 48″w-96″w, in 6″ increments
- 30″d/36″d worksurface widths: 60″w-84″w, in 6″ increments
- Handed left or right
- Long grain only

Options

- Grommets available in any combination of left, center, and right

AL-T24LSRWSR right hand shown

Modular components Worksurfaces | overlay

General

- Depth: 24″d
- Overall height: 7″h
- 6″h vertical riser support handed left or right
- Riser support is 23″d. Gap can be filled in with a pedestal filler panel or static back panel

Long grain worksurfaces

- Widths: 24″w-96″w, in 6″ increments

Short grain worksurfaces

- Widths: 24″w-54″w, in 6″ increments

Options

- Grommets available in any combination of left, center, and right

Left hand

AL-T24LRWSOL (long grain shown)

Right hand

AL-T24LRWSOR (long grain shown)

Modular components Supports | main supports

General

- Models available to use with 24″d, 30″d, and 36″d worksurfaces

O leg

- Metal leg with rounded corners

H leg

- Round solid beech legs with metal stretcher

Wing end assembly

- Left and right models available
- Vertical grain direction
- Ships KD

End panel

- End panel also available in 23″d. Use on a 24″d worksurface when a back panel or support panel is specified
- End panels can be specified at desk or low height. **Note**: Low height depths available as 23″d or 24″d only
- Angle brackets included for support. Use one bracket for 24″d surface, two brackets for 30″d and 36″d worksurfaces
- Vertical grain direction

O leg

End panel

AL-T24DEP (desk height shown)

Modular components Supports | intermediate supports

Support panel
- Widths: 12″w, 18″w
- 12″w support panel available as desk or low height. 18″w for desk height only
- Used to create an L support at a corner with an end panel, back panel junction, or another support panel

Support base
- Width: 12″w
- Depths: 12″d, 18″d
- Top wire management notch at back of the support
- Used to support worksurfaces at a seam, or a wider surface at the center. **Note**: Not to be used with back panel

Filler panel
- Width: 5″w
- Low and desk height models available
- Used to close in the end gap behind a pedestal when a back panel is not specified

Riser support
- For use with 24″d, 30″d, and 36″d worksurfaces
- Used to support high to low runoff worksurfaces

Static back panel
- Widths: 18″w-96″w, in 6″ increments
- Low and desk height models available
- Optional wire access slot. **Note**: Minimum back panel width to specify wire access slot is 24″w
- Use as a desk full height modesty, or secondary surfaces to enclose the back

Fold down back panel
- Desk height only
- Widths from 12″w-94″w, in 1″ increments
- Features top fold down panel for wall access
- Models 12″w-48″w feature one fold down door
- Models 49″w and wider feature two fold down doors and a center cantilever support

Modular components Partial height modesty

General

- Widths: 30″w-78″w, in 1″ increments
- Height: 12″h
- Available as TFL or frosted acrylic. Horizontal grain for woodgrain TFL modesty
- Modesty mounting brackets included on TFL modesty
- Frosted acrylic modesty requires AL-MPB bracket
  - 30″w-57″w requires two brackets
  - 58″w-78″w requires three brackets

Options

- Square or curved corners for bottom of modesty panel
- Round corner locations: left corner (RLCR), right corner (RRCR), or both corners (RBCR)

AL-MPB

Modular components Pedestals | overview

General

- All doors and drawers feature soft close hinges and drawer glides
- Desk and low height pedestals require a worksurface, specified separately
- Desk and low height pedestals feature unfinished backs, use with a static back panel or filler panel to close in gap
- Bench height pedestals standard with top and finished back
- **Note**: Desk and low height pedestals cannot be freestanding
- See Adler planning guide for specifying information and filing capacity

Options

- Integrated or Aero pull
- When Aero pull is specified, 18″w fronts feature 7″w pull and 24″w fronts and wider feature a 14″w pull
- Optional felt liner for box drawers

Integrated pull

Aero pull

Felt drawer liner

Modular components Pedestals | desk height drawers

General notes

- Creates a worksurface height of 29.8″h
- Refer to pedestal overview page for additional specifying information

Options

- No lock standard (NL). Optional locking
- Optional felt liner in box drawer(s)

Box/box/file

- Widths: 18″w, 24″w, 30″w, 36″w
- Depths: 23″d, 29″d, 35″d
- **Note**: 29″d and 35″d only available as 18″w

File/file

- Widths: 18″w, 24″w, 30″w, 36″w
- Depths: 23″d, 29″d, 35″d
- **Note**: 29″d and 35″d only available as 18″w

Power tray/box/file

- Widths: 24″w, 30″w, 36″w
- Depth: 24″d
- Felt liner in power tray top standard
- No power standard. Optional power in left (PL), right (PR), or left and right (PLR) locations
- Power available as black (BL), white (WH), or silver (SV). **Note**: One power cord per power supply
- Power supply includes one outlet and one USB-A/USB-C port
- **Note:** The power tray pedestal does not require a worksurface or back panel

Modular components Pedestals | desk height storage

General notes

- Creates a worksurface height of 29.8″h
- Refer to pedestal overview page for additional specifying information

Options

- No lock standard (NL). Optional locking for hinged door and printer pullout pedestals

Open shelving

- Widths: 18″w, 24″w, 30″w, 36″w
- Depth: 23″d
- One adjustable shelf
- Removable back panel for wall access

Hinged door

- Widths: 18″w, 24″w, 30″w, 36″w
- Depth: 23″d
- One adjustable shelf
- 18″w features single door, hinged left or right 24″w, 30″w, and 36″w features double door

Printer pullout

- Width: 18″w, 24″w
- Depth: 23″d
- Handed left or right

Printer pullout continued

- Available interior printer space:
  - 18″w: 15.5″w x 19.6875″d x 15.75″h
  - 24″w: 21″w x 19.6875″d x 15.75″h
- Three outlet power supply and grommet included in drawer back. **Note**: If a back panel is added to the pedestal, a grommet will need to be field cut to allow for outlet cord to pass through

Trash pullout

- Width: 18″w, 24″w
- Depth: 23″d
- Rectangle 30 qt. trash can included
- One trash can for 18″w pedestals
- Two trash cans for 24″w pedestals

Bag cubby

- Width: 12″w
- Depth: 23″d
- Side opening with floor storage and maple wood hanging knob

Modular components Pedestals | corner units

Corner pedestal general notes

- Use with open pedestal for corner to create a corner at a worksurface junction
- Widths:
  - 42″w (18″w pedestal)
  - 48″w (24″w pedestal)
  - 54″w (30″w pedestal)
  - 60″w (36″w pedestal)
- Depth: 23″d
- **Note**: Trash and printer pullout configurations available on 42″w and 48″w models only
- Pedestal location handed left or right
- Refer to pedestal overview page for additional specifying information

Low height corner pedestals

- Creates a worksurface height of 22.75″h
- Trash model includes round 23.5 qt. trash can

Desk height corner pedestals

- Creates a worksurface height of 29.8″h
- Trash model includes round 30 qt. trash can

Options

- Felt drawer liner available in top box drawer when C5Z or C5A pedestal is specified
- No lock standard (NL). Optional locking for drawer, door, and printer pedestals

Modular components Pedestals | Open pedestal for corner unit

- Widths: 18.75″w, 24.75″w, 30.75″w, 36.75″w
- Desk or low height
- Use with corner pedestals to create a corner at a worksurface junction

AL-T23DCOS (desk height)
AL-T23LCOS (low height)

Modular components Pedestals | bench height

General notes

- Creates a 15.75″h worksurface height
- Widths: 24″w, 30″w, 36″w
- Depth: 24″d
- Adjustable shelf for open and hinged door models
- Refer to pedestal overview page for additional specifying information

Options

- Optional felt liner for box drawers
- No lock standard (NL). Optional locking for drawer and door pedestals
- Can be used with floor storage cushions, specified separately

Wallmount components Standard height media panels | full height

General notes

- For use above static worksurfaces when no wallmounted storage is specified
- Widths: 24″w-60″w, in 6″ increments
- Heights:
  - 56.2813″h (for bench height)
  - 49.25″h (for low height or height adjustable cantilever and runoff desks)
  - 42.1875″h (for desk height)
- Mounts directly to the wall, mounting hardware included
- **Note**: TFL and upholstered panels have optional shelf. See full height shelf section

TFL

- Vertical grain back panel

Upholstered

- Upholstered models are tackable
- **Note**: Upholstered wall panel with shelf option is not tackable
- **Note**: Fabric panels wider than 42″w will be two pieces

Markerboard

- HPL laminate dry erase markerboard

Floor storage Swivel bench

General notes

- Bench height pedestals with cushioned swivel bench
- Widths: 54″w, 66″w
- Depth: 24″d
- Overall height: 19.72″h
- 54″w features two 24″w sections, 66″w features two 30″w sections
- 20″d HPL swivel bench with 1.5″ thick fixed cushion top
- Swivel bench has 275 lb. max rating
- 30″w cushion on 54″w unit, 42″w cushion on 66″w unit
- Casters are locking and standard in black
- Finished back standard
- Adjustable shelf in each section for open and hinged door models
- **Note**: 2″ of clear space is required at end of bench for swivel bench to be operational
- Refer to pedestal overview page for additional specifying information
- **Note**: Over time, carpets may show indentation patterns from repeated caster travel. This tracking or shading, similar to what appears when a stationary chair, table, or desk is moved, is a normal characteristic on a variety of pile carpets under consistent friction. In many cases, these marks can be reduced or eliminated through routine vacuuming or steam cleaning. Daily use and moving the bench while seated can increase the visibility of these patterns. The integrated bench solution is intended to serve as a touchdown seat and provide additional seating when needed

Options

- Optional felt liner for box drawers
- No lock standard (NL). Optional locking for file drawers and hinged door models only

Floor storage Towers | Overview

General

- Towers are available as full door, pedestal with upper storage (with or without side hinged wardrobe), and slide out wardrobe
- Depth: All towers are 24″d
- Heights: All towers are 72″h

Hinged doors

- All TFL doors can be specified with no pull (AS), or metal Aero pull. Touch latch standard when no pull (AS) is specified
- **Note**: All towers on following pages are shown with Aero pull to show pull placement
- No pull standard on frosted acrylic or back painted glass doors. Touch latch door standard on these door fronts
- Soft close hinge on all doors

Pedestals

- See pedestal overview page for more information on pull details for tower pedestals
- Towers with pedestals are available with low or desk height pedestal storage

Locking

- Optional locking on TFL hinged doors only
- Locking available for box, file, and printer pedestal drawers only
