Ani building blocks

Table of contents

Overview	3
Lounge	4-5
Loveseat	6-7
Sofa	8-9

Overview

General

- Three seating options: lounge, loveseat, and sofa
- Square (30 ½"h) or curve (32"h) back
- Available with or without arms
- Units without arms are standard as single textile while units with arms can be specified with multiple textiles
- Leg types include high leg, low leg, or concealed glide
- Push through clean out behind seat

Options

- No arm cap is standard. Wood or solid surface arm caps can be specified at a charge. Solid surface options: Cameo White, Modern White, Medea, and Polaris
- Optional tablet can be specified as left facing, right facing, or both
- Optional power can be specified as left facing, right facing, or both

Concealed glide

Lounge Leg styles

General notes

- Overall height does not change due to leg selection
- Three leg styles
- Metal legs are available in all standard and studio powder coats
- Wood post leg is available in standard finishes on beech
- Casters are standard black finish
- BLDW and BLHW have the front (2) casters as a typical lever lock. The casters on BCML, BDML, BCWL, BDWL, BDWC, and BDHC are "standard locking" which means that they are locked when the chair is unloaded and unlock when weight is applied.
