

Kintra

People gather. It's fundamental to how we experience life. A great table can serve as the common ground we need to connect with one another and find a sense of belonging. We designed Kintra to offer a central stage that sparks and supports sharing conversations, stories, and ideas between people. Community thrives when people have places where they can engage with one another, which is exactly what Kintra inspires.

OFS Design Studio

The OFS Design Studio represents a collaborative effort of dynamic backgrounds and geographic origins among industrial design and engineering teammates with one thing in mind...people. Pencil sketches, 3D printed parts and rough prototypes serve

as the journey to fine tune the last 10% so that people can feel the difference between good design and great design. Our goal is to deliver design value in a very intentional way where products are simple, personal and purposeful.
