Overview	3
Lounge chairs	4
Modular - 90° corners	5
Modular - 120° corners	6
Modular - ends	7
Modular - centers	8
Power	9

## Overview

### General notes

- Non -MT models to launch July 16th, 2025
- Models include bench, low back, and high back
- All models feature 1.5" h black foot with 1" adjustable levelers

### Elevations

- Bench: 18.5" h
- Low back: 33.5" h
- High back: 53" h

### Multiple textiles

- All low back and high back models are standard with two textile placement locations, on the seat and inside lumbar back, and outside back surround
- Multiple textiles allows you to select a third fabric for the inside lumbar back
- Add -MT to the end of the model number for additional fabric placement
- **Note:** All benches are single textile models only

210041IL-MT (multiple textiles)

210041H (shown)  
210041IH-MT (multiple textiles)

## Modular 90° corner

### Bench

- Width: 42.25"w
- Depth: 42.25"d
- Height: 18.5"h

### Low back

- Width: 45.5"w
- Depth: 45.5"d
- Height: 33.5"h

### High back

- Width: 45.5"w
- Depth: 45.5"d
- Height: 53"h

### Options

- Multiple textiles for seat and inside lumbar back on models with a surround

**Bench**

210090B

**Low back**

210090L (shown)  
210090L-MT (multiple textiles)

**High back**

210090H (shown)  
210090H-MT (multiple textiles)

The ends of corner and center seats are unfinished, and must be specified with an end unit

## Modular 120° corner

### Bench

- Width: 64.5"w
- Depth: 50"d
- Height: 18.5"h

### Low back

- Width: 67.5"w
- Depth: 53.25"d
- Height: 33.5"h

### High back

- Width: 67.5"w
- Depth: 53.25"d
- Height: 53"h

### Options

- Multiple textiles for seat and inside lumbar back on models with a surround

**Bench**

210090B

**Low back**

210090L (shown)  
210090L-MT (multiple textiles)

**High back**

210090H (shown)  
210090H-MT (multiple textiles)

The ends of corner and center seats are unfinished, and must be specified with an end unit

## Modular Ends

### General

- Models handed left or right

### Bench

- Widths: 28.25"w, 42.25"w
- Depth: 25.5"d
- Height: 18.5"h

### Partial surround

- Low back and high back models
- Widths: 28.25"w, 42.25"w
- Depth: 28.75"d
- Height: 33.5"h, 53"h

### Full surround

- Low back and high back models
- Widths: 31.5"w, 45.5"w
- Depth: 28.75"d
- Height: 33.5"h, 53"h

### Options

- Multiple textiles for seat and inside lumbar back on models with a surround
- Single power module available. See **Obee planning guide** for more information

### Bench

210141LR-MT (multiple textiles)

High back  
210141HR (shown)  
210141HR-MT (multiple textiles)

**The ends of corner and center seats are unfinished, and must be specified with an end unit**

## Modular Centers

### General

- Models handed left or right
- Width: 42" w

### Bench

- Depth: 25.5" d
- Height: 18.5" h

### Partial surround

- Low back and high back models
- Depth: 28.75" d
- Height: 33.5" h, 53" h

### Full surround

- Low back and high back models
- Depth: 45.5" d
- Height: 28.75" h

### Options

- Multiple textiles for seat and inside lumbar back on models with a surround
- Single power module available. See **Obee planning guide** for more information

### Bench

210040

### Partial surround

210642LH-MT  
(multiple textiles)

High to low  
210642HL (shown)  
210642HL-MT  
(multiple textiles)

The ends of corner and center seats are unfinished, and must be specified with an end unit

## Power

### General

- Power is available on standalone and ganging models
- **Note:** Power modules not available on 90° or 120° corners
- See Obee planning guide for more information

### Power module

- Includes single outlet, USB-A and USB-C charging ports

### Distribution blocks

- PS-GDB (gray box) is used to connect power modules when infeed is at the end of a run
- PS-BDB (black box) is used to connect power modules when infeed is in the middle of a run

### Infeed

- Plug and play infeed

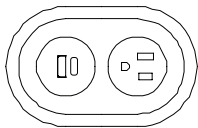

### Jumpers

- Widths: 54"w, 60"w, 84"w

### Wire management pass through

- For models with power running through them, specify a wire management pass through
- **Note:** Not available on freestanding lounge, power will exit through bottom of the unit
- One pass through location for end models, two pass through locations for center models
- **Note:** Pass through location is determined when facing the unit
