

Heya mobile

In Japanese, Heya means “small room.” Designer Roger Webb created Heya to form smaller spaces within an environment. For individuals, Heya creates a place for people to escape, think, and breathe. For groups, Heya creates a place for people to closely collaborate and connect. We even took Heya to a more portable level with Heya mobile, creating the option to adjust the space according to employee needs throughout the day. Heya’s comfort and visual softness allow these small rooms to blend seamlessly into the office, while still providing the closeness and privacy people need to really focus.
