

Harpin

Chairs are personal. We allow them into our spaces and rely on them daily for support. Often, chairs can even be a reflection of our personalities. Harpin embraces the things that we all share as people while celebrating what makes us each unique.

Harpin's simple form and structure provides a unified aesthetic and proven ergonomic support, while still providing an opportunity for personal expression through different options for texture, color, and arms.

Harpin

OFS Design Studio

The OFS Design Studio represents a collaborative effort of dynamic backgrounds and geographic origins among industrial design and engineering teammates with one thing in mind...people. Pencil sketches, 3D printed parts and rough prototypes serve

as the journey to fine tune the last 10% so that people can feel the difference between good design and great design. Our goal is to deliver design value in a very intentional way where products are simple, personal and purposeful.
