

Vide

We created Vide with personalization and movement in mind. There's something about adding your personal flair by choosing from the variety of wood or leather shelving, pops of colors with powder coats, and tying in natural elements with planters to create an environment of confidence and creativity. Once you find the perfect fit, you still have the opportunity to rearrange, add design details and accents as you see fit. Vide is the perfect balance of playful and practical to bring your space to life.
