

Pret

Extensive comfort and affordability should go hand-in-hand, and they do with Pret. The quiet design of Pret, offered as a task chair or stool, supports users with a contoured, continuous mesh back and seat. Its lightweight frame and optional ribbon arms make for quick transitions between workstyles, all the while delivering personalized comfort with an integrated body balance mechanism. With the choice of three frame colors and seven mesh options, Pret can subtly serve a space or stand out with a punch of color.
