Room Collection

Acoustic Lounge

We make room for people

We know people are the most important asset in any organization, so we put them first. We've set out to launch a fast, cost effective alternative to complex construction with modular, purpose-built architecture that allows teams to shape and then reshape their work environment with ease.

The result—a dynamic, agile workspace that boosts productivity and workforce happiness, and alleviates the reliance on fixed construction and fixed ideas.

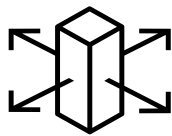

We make work, work for you

Our prefabricated architecture offers a smarter, sustainable, and cost effective alternative to traditional construction. We keep quality high and prices low, so you can do more with less. It's good for business and good for the environment.

Cost Effective

We make extra room in the budget without compromising quality and performance.

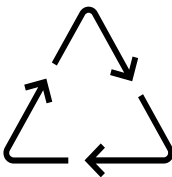

Flexible

All products are portable, so you can easily move them around the office or into your next one.

Easy to install

We ship flat for seamless delivery and assembly, so you can build a better way of working right away.

Sustainable

We design sustainably to minimize our footprint, from manufacturing and delivery, to beyond.

Room for the environment

From bottle to booth, and design to delivery, we have thought about sustainability every step of the way.

We source sustainable & recyclable materials

Every minute, one million plastic bottles are thrown away around the world, which comes at a great expense to our environment. We believe that there's a better place for your empty Evian than a landfill, which is why we engineered our soundproofing materials with recycled plastic bottles. In fact, each one of our modular products is engineered with over 1,000 recycled plastic bottles. To date, we have repurposed nearly 38 million bottles and counting.

Built to last & adapt

We build for longevity and adaptability in order to replace multiple cycles of construction and the waste derived from it. By thinking cyclically, we're helping to reduce the near 600 million tons of construction and demolition waste created each year.

Reduce CO2 footprint from shipping and packaging

We reduce our carbon footprint by shipping flat and using sustainable packaging. We've even placed an icon on all of our packaging reminding our customers and assembly teams around the world to recycle our packaging post-installation.

One Tree Planted

ROOM and One Tree Planted, a leading nonprofit organization focused on global reforestation, are working to restore forests, create habitat for biodiversity, and make a positive social impact around the world. Since 2020, we have partnered with One Tree Planted to reforest areas throughout the world as a commitment to carbon reduction and natural habitat restoration.

The world’s leading brand choose ROOM.
Over 8,000 brand and counting

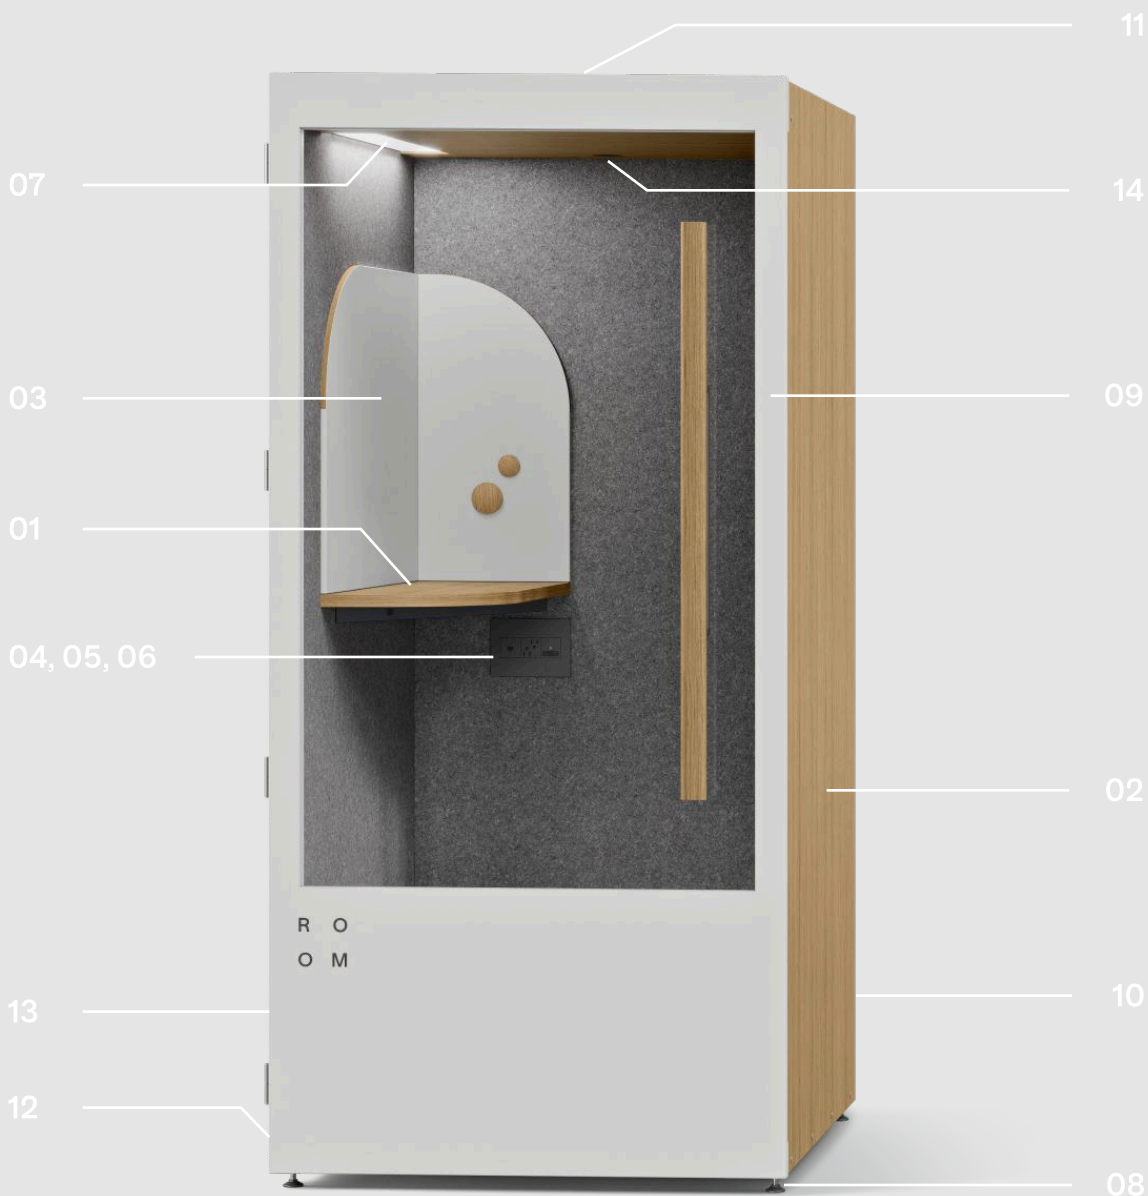

Phone Booth

A personal space for everyone.

Constant noise and insufficient meeting space lead to lost productivity, creativity, and job satisfaction, as well as higher stress levels.

By creating space for solo phone calls, virtual meetings and focused work, our Phone Booth ensures you never have to fight over conference rooms or take calls in the hallway again. The result: a happier, healthier, and more productive workforce.

Phone Booth

01 Custom Built-in Desk

The 31.5" oak-veneered desk gives you ample space for all your essentials.

04 Power Outlets

Two outlets keep you powered up for every charged work session.

07 Motion Sensor

Smart sensor activates the light and fans, helping you stay energy efficient.

10 Industrial Grade Carpet

100% solution-dyed PET for higher resistance to wear and tear.

13 Plug

Located in the back, a standard 120V plug with a 10ft long power cord gives you freedom to make room where you need it most, no hardwiring required.

02 Sustainably Soundproof

Made from recycled PET and engineered to reduce noise by 30dB.

05 Ethernet Port

CAT6 RJ45 plug ensures you never miss a connection.

08 Leveling Feet

Adjustable feet compensate for uneven surfaces, so everyone stays level-headed.

11 Ceiling Fans

Two ultra-quiet fans keep you cool under pressure.

14 Sprinkler Access Hole

Removable caps allow access to a pre-drilled sprinkler hole to ensure a path to compliance in all markets.

03 Magnetic Board

Designed to house your favorite accessories, the magnetic board ensures you stay organized.

06 LED Light

Overhead LED light strip ensures bright ideas don't stay in the dark.

09 Magnetic Door

Acrylic panel with magnetic seal, housed in a metal frame, minimizes noise and keeps office banter out.

12 Airflow Inlet

Discreet inlet, removable for easy cleaning, optimizes airflow.

Room Collection

Room S

Smart design for smart work.

Meet The Room Collection—a modular system of architectural building blocks that makes space work smarter.

Whether it’s deep focus, spontaneous collaboration or a quiet moment alone, create a workspace designed to adapt. No drywall required.

Our Room S series is smart design for smart work. With three custom configurations designed for privacy or collaboration in the open plan, meet the series that makes space work for you.

Room S Frame

A blank canvas for better space planning.

The Room S Frame is a clean architectural structure designed to flex with your needs. It's your starting point—a minimalist frame that gives you the freedom to furnish, configure and reimagine your space as you go. This is flexibility, by design.

Frame

01 Sustainably Soundproof
Walls made from 100% pure new wool and recycled PET, engineered to reduce noise by up to 30db.

04 Motion Sensor
Occupancy sensor helps you stay energy efficient all day long.

07 Plug
Located in the back of the room, a standard 120V plug with 10ft cord reach gives you the freedom to make room where you need it most, no hardwiring required.

02 Ventilation
Fans in the roof and interior air inlets keep the air inside fresh at all times.

05 Skylights
More natural light means more room to free your mind and think big.

03 Ambient Lights
Recessed lighting overheads that help your bright ideas come to light.

06 Light Controls
Intuitive control of in-room lighting ensures the light hits you and your work just right.

Room S Meeting Room

A better way to meet in the modern workplace.

The Room S Meeting Room creates connected, collaborative spaces without the distractions of the open plan. Bring the team together for one-on-ones or brainstorm in a space designed for meaningful interactions, be it in person or remote.

With sustainable, sound-dampening walls and an optional built-in monitor and 180° camera, Room S is video-conference ready when you are. The result? A quieter, more productive space built for modern meetings.

Meeting Room

01 Two-Seater Sofas
A pair of upholstered sofas provide durable, comfortable seating for everyone.

04 Power Box
Built-in power box holds cables in place, ensuring your devices stay charged up.

07 Oak Accents
Lower wall oak tambour with solid white oak door handle proves great design is in the details.

10 Plug
Located in the back of the room, a standard 120V plug with 10ft cord reach gives you the freedom to make room where you need it most, no hardwiring required.

02 Sustainably Soundproof
Walls made from 100% pure new wool and recycled PET, engineered to reduce noise by up to 30db.

05 Workstation
A tabletop large enough to fit two laptops means plenty of room to be creative.

08 Ambient Lights
Recessed lighting overheads helps your bright ideas come to light.

03 Ventilation
Fans in the roof and interior air inlets keep the air inside fresh at all times.

06 Skylights
More natural light means more room to free your mind and think big.

09 Light Controls
Intuitive control of in-room lighting ensures the light hits you and your work just right.

Room L Meeting Room

A better way to meet in the modern workplace.

The Room L Meeting Room creates connected, collaborative spaces without the distractions of the open plan. Bring the team together for one-on-ones or brainstorming sessions in a space designed for meaningful interactions, be it in person or remote.

With sustainable, sound-dampening walls and an optional built-in monitor and 180° camera, Room L is video-conference ready when you are. The result? A quieter, more productive space built for modern meetings.

Meeting Room

01 Three-Seater Sofas

A pair of upholstered sofas provide durable, comfortable seating for everyone.

04 Power Box

Built-in power box holds cables in place, ensuring your devices stay charged up.

07 Oak Accents

Lower wall oak tambour with solid white oak door handle proves great design is in the details.

10 Plug

Located in the back of the room, a standard 120V plug with 10ft cord reach gives you the freedom to make room where you need it most, no hardwiring required.

02 Sustainably Soundproof

Walls made from 100% pure new wool and recycled PET, engineered to reduce noise by up to 30db.

05 Workstation

A custom 80" x 33" linoleum desktop large enough to fit six laptops means plenty of room to be creative.

08 Ambient Lights

Recessed lighting overheads helps your bright ideas come to light.

03 Ventilation

Fans in the roof and interior air inlets keep the air inside fresh at all times.

06 Skylights

More natural light means more room to free your mind and think big.

09 Light Controls

Intuitive control of in-room lighting ensures the light hits you and your work just right.

Meeting Room with Monitor Mount

Room L Focus Room

A private space to call your own.

Privacy meets productivity with the Room L Focus Room, a thoughtfully designed private office that helps you tune out distractions and zero in on what matters. With over 70% of employees citing noise as a top challenge, silence never sounded so good.

Complete with an ergonomic, height-adjustable desk, built-in storage and overhead skylights, the Room L Focus Room is made for stepping in, settling down and getting to work.

Focus Room

01 Desk

Ergonomic height-adjustable desk with a soft-touch finish gives you plenty of room to be creative.

02 Sustainably Soundproof

Walls made from 100% pure new wool and recycled PET, engineered to reduce noise by up to 30db.

03 Ventilation

Fans in the roof and interior air inlets keep the air inside fresh at all times.

04 Credenza

Make the room your own with a two-shelf credenza designed to show off your unique taste, not your clutter.

05 Skylights

More natural light means more room to free your mind and think big.

06 Built-in Power

A built-in power unit ensures outlets and USB ports are at your fingertips, keeping you charged and connected.

07 Oak Accents

Lower wall oak tambour with solid white oak door handle proves great design is in the details.

08 Whiteboard

Large or small interior whiteboard gives you space to create and ideate in the office without distraction. Easily attaches to a built-in interior accessory rail.

09 Ambient Lights

Recessed lighting overheads helps your bright ideas come to light.

10 Light Controls

Intuitive control of in-room lighting ensures the light hits you and your work just right.

11 Plug

Located in the back of the room, a standard 120V plug with 10ft cord reach gives you the freedom to make room where you need it most, no hardwiring required.

12 ADA Compliant

Clear turning space and entry clearance for maximum mobility and minimal entrance threshold ensure comfort and productivity for everybody.
