

CEU offering

Climate Positive Materials for Sustainable Interiors

A CEU course sponsored by OFS

Course description: This CEU, written by Kenn Busch, highlights the importance of making informed choices about the materials used within our interior spaces. It provides insights into the risks associated with Climate Change and increased Greenhouse Gas Emissions, what carbon is and its role in our planetary cycles, forestry practices, and wood's role as a climate-positive material for furniture manufacturing.

Created by:
Kenn Busch

This course was created by Kenn Busch, an A&D CEU developer & presenter; Material Sustainability Thought Leader & Speaker; Publisher

CEU credits:

- 1.0 IDCEC HSW Sustainability CEU credit (Interior Design Continuing Education Council)
